How did you come to own or ride him or her? How long have you owned/lease/ridden him or her?

I was looking for a western Pleasure show horse and he had been at my trainer's barn since he was three and I had always admired him. Never thinking that I would ever have a chance to own him. Well, it happened! We have been together for almost 10 years. He is now retired and making babies full time!

How are they a wonderful example of the Arabian Horse? Or what are their best or your favorite features?

I love how they want to be with you and want to please you. They are also the most beautiful horses that I know.

Favorite, sweet or fun memory, story, or fact about them, what are some of their favorite things or treats, etc.:

My favorite memory is when Po won the Western Pleasure Open championship at the Canadian Nationals in 2019 at the age of 15. Po has won a lot but this was a special one as it was a first Open western win for his trainer, Rob Bick, who has been together with him since Po was 3.
