How did you come to own or ride him or her? How long have you owned/lease/ridden him or her?

started taking riding lessons at Talana Farms and he was the first horse I rode. I've ridden Light for 2.5 years.

How are they a wonderful example of the Arabian Horse? Or what are their best or your favorite features?

Being a good "teammate". He is always a horse I can trust to take care of me. He will let you know how he's feeling too.

Favorite, sweet or fun memory, story, or fact about them, what are some of their favorite things or treats, etc.:

My favorite memory about him was my first horse show. We did lead line when I was 5. His favorite treats are baby carrots or apples, he LOVES Snacks! He likes to cuddle me when we practice "Halter" & is always waiting for his snacks after.
